This new Blackjack Basic (Playing) Strategy card for 2 Decks is a blackjack player’s dream come true. Professional blackjack player Kevin Blackwood shares his million-dollar winning strategies for mastering the odds and consistently beating the house at their own game. Product Description
“Here we go, I said to myself as my system electrified with the familiar rush of adrenaline.”

An elite unit armed to the teeth, the Mobile Guerrilla Force was America’s only real guerrilla force in Vietnam. These men operated for weeks at a time—springing ambushes, destroying base camps, and gathering vital intelligence—in steamy, triple-canopied jungles ruled by the VC and NVA.

On July 18, 1967, Special Forces medic James Donahue and his platoon were on a mission, code-named Blackjack-34, to locate enemy units for the 1st Infantry to destroy. But instead a crack enemy battalion found them.

This is a preview of "Blackjack-34". [Read the full post \(133 words, 1 image, estimated 32 secs reading time\)](#)

Phil Hellmuth, Jr., winner of nine WSOP titles and author of Play Poker Like the Pros “Blackjack is definitely a game that you can make money playing, and this book shows you how to do it!”

Blackjack is by far the most popular casino table game. The reason is because it has the lowest house edge. While other table games give the

house a minimum 3% edge, blackjack provides close to even odds for players willing to learn what is called “basic strategy.” And for players who are able to learn card counting, blackjack is actually a beatable game. But the reality is that out of the millions of people who play blackjack, only a small percentage will take the time or make the effort to play perfect basic s... [More >>](#)
